CLASSIFICATION OF WORKERS UNDER TENNESSEE'S PREVAILING WAGE LAW HIGHWAY CONSTRUCTION CRAFTS

Contents

Air Tool Operator (Skilled Laborer – Craft 19).....	4
Asphalt Milling Machine Operator (Class “C” Operator – Craft 22)	4
Asphalt Paver Machine Operator (Class “C” Operator – Craft 22).....	4
Asphalt Raker (Skilled Laborer – Craft 19)	4
Backhoe Operator (Class “A” Operator – Craft 20)	4
Bituminous Distributor Machine Operator (Class “D” Operator – Craft 23)	4
Bobcat Operator (Class “D” Operator – Craft 23)	4
Boring Machine Operator (Class “D” Operator – Craft 23)	4
Bricklayer (Craft 01)	5
Bull Dozer or Push Dozer Operator (Class “B” Operator – Craft 21).....	5
Carpenter (Craft 02).....	5
Central Mix Plant Operator-Asphalt or Concrete (Class “D” Operator – Craft 23)	5
Chain Saw Operator (Skilled Laborer – Craft 19)	5
Class “A” Operator (Craft 20).....	5
Class “B” Operator (Craft 21).....	5
Class “C” Operator (Craft 22).....	6
Class “D” Operator (Craft 23).....	6
Concrete Finisher (Craft 03)	6
Concrete Finishing Machine Operator (Class “C” Operator – Craft 22)	6
Concrete Grinder Operator (Class “C” Operator – Craft 22).....	6
Concrete Mixer Operator – Less than 1 yard (Skilled Laborer – Craft 19).....	6
Concrete Paver Operator (Class “C” Operator – Craft 22).....	6
Concrete Rubber (Skilled Laborer – Craft 19)	6
Concrete Saw Operator (Class “D” Operator – Craft 23)	7
Crane Operator (Class “A” Operator – Craft 20)	7
Curb Machine Operator – Automatic (Class “D” Operator – Craft 23).....	7
Curb Machine Operator – Manual (Class “D” Operator – Craft 23).....	7
Distributor Operator – Bituminous (Class “D” Operator – Craft 23).....	7
Ditch Paver Machine Operator (Class “D” Operator – Craft 23).....	7
Dozer or Loader – Stock pile only (Class “D” Operator – Craft 23)	7
Drill Operator – Ciasson (Craft 04)	8
Drill Operator – Piling (Class “D” Operator – Craft 23)	8
Electrician (Craft 05).....	8
End Loader Operator (Class “A” Operator – Craft 20)	8
Fence Erector (Skilled Laborer – Craft 19).....	8
Form Setter – Steel Road (Skilled Laborer – Craft 19).....	8
Guard Rail Erector (Skilled Laborer – Craft 19).....	8
Ironworker – Reinforcing (Craft 07).....	8
Ironworker – Structural (Craft 08)	9
Laborer Unskilled (Craft 09)	9
Mechanic – Class I – Heavy Duty (Craft 10).....	9
Mechanic – Class II – Light Duty (Craft 11).....	9
Mortar Mixer – Hand (Laborer Unskilled – Craft 09)	9
Motor Crane Drive (Class “A” Operator – Craft 20)	9
Motor Patrol Operator – Finish (Class “A” Operator – Craft 20)	9
Motor Patrol Operator – Rough (Class “B” Operator – Craft 21).....	10
Mulcher or Seeder Operator (Class “D” Operator – Craft 23).....	10
Nozzleman or Gunman – Gunite (Skilled Laborer – Craft 19)	10
Painter or Sand Blaster (Craft 12).....	10
Pile Driver Operator (Class “D” Operator – Craft 23)	10

Contents Continued

Pipe Layer (Skilled Laborer – Craft 19)	10
Powder Person (Craft 13).....	11
Pump Operator (Class “D” Operator – Craft 23)	11
Roller Operator – Asphalt (Class “D” Operator – Craft 23).....	11
Roller Operator – Other than Asphalt (Class “D” Operator – Craft 23)	11
Scale Operator (Class “C” Operator – Craft 22).....	11
Scraper Operator (Class “B” Operator – Craft 21).....	11
Shovel Operator – Dragline (Class “B” Operator – Craft 21).....	12
Sign Erector (Skilled Laborer – Craft 19)	12
Skilled Laborer (Craft 19).....	12
Soil Stabilization Machine Operator (Class “D” Operator – Craft 23).....	12
Spreader Operator – Self Propelled (Class “C” Operator – Craft 22)	12
Striping Machine Operator (Class “D” Operator – Craft 23)	12
Survey Helper/Rodman (Skilled Laborer – Craft 19).....	12
Survey Instrument Operator (Craft 24).....	13
Sweeping Machine (Vacuum) Operator (Craft 14).....	13
Track Drill Operator (Class “D” Operator – Craft 23).....	13
Tractor Operator – Boom and Hoist (Class “D” Operator – Craft 23).....	13
Tractor Operator – Crawler or Utility (Class “B” Operator – Craft 21).....	13
Tractor Operator – (Farm) Power Broom (Craft 06)	13
Trenching Machine Operator (Class “B” Operator – Craft 21)	13
Truck Driver – 2 Axles (Craft 15).....	14
Truck Driver – ¾ Axles (Craft 16).....	14
Truck Driver – 5 or more Axles/Heavy Duty Off Road (Craft 17)	14
Welder’s Helper (Any craft to which the work is incidental).....	14
Worksite Traffic Coordinator (Craft 18).....	14

AIR TOOL OPERATOR (Skilled Laborer – Craft 19)

A semi-skilled laborer. – A general term applied to any worker who uses a tool driven by compressed air to perform such work as breaking old pavement, loosening or digging hard earth, trimming bottom and sides of trenches, breaking large rocks, chipping concrete, trimming or cutting stone or compaction of earthen backfill. May perform other related semi-skilled duties

ASPHALT MILLING MACHINE OPERATOR (Class “C” Operator – Craft 22)

Uses specialized machine to mill asphalt for use in resurfacing highways, etc. May perform other related duties.

ASPHALT PAVER MACHINE OPERATOR (Class “C” Operator – Craft 22)

Manipulates hand or foot levers to control movements of paving machine that spreads and levels asphalted concrete on sub-grade of highway: turns hand-wheels to raise or lower screeds, regulates width of creed. May oil, grease or otherwise service and make necessary adjustment to equipment as needed. Performs other related duties.

ASPHALT RAKER (Skilled Laborer – Craft 19)

Distributes asphalted road-building materials evenly over road surface by raking and brushing material to correct thickness: directs asphalt shoverlers when to add or take away material to fill low spots or to reduce high spots. Performs other related duties.

BACKHOE OPERATOR (Class “A” Operator – Craft 20)

A general term applied to a worker who operates boom-type equipment to hoist and move materials, raise and lower heavy weights, and perform other related operations. This equipment is used for such work as excavation. Equipment may be used for other miscellaneous tasks for which crane or stick-type equipment is required. May oil, grease or otherwise service and make necessary adjustments to equipment as needed. Performs related duties.

BITUMINOUS DISTRIBUTOR MACHINE OPERATOR (Class “D” Operator – Craft 23)

Operates machine that spreads and levels hot-mix bituminous paving material on sub-grade of highways and streets. Performs other related duties.

BOBCAT OPERATOR (Class “D” Operator – Craft 23)

Uses small tractor-type equipment for excavation, backfill trenching or smoothing with blade-lift, scoop or bucket. Performs other related duties.

BORING MACHINE OPERATOR – HORIZONTAL (Class “D” Operator – Craft 23)

Sets up and operates drilling mechanism that drills holes horizontally. Levels machine by placing timbers under wheels or tracks. Inserts and fastens drill steel in chuck. Adjusts angle of drill tower and bolts into position. Controls drilling and speed of drill by moving levels. May oil, grease or otherwise make necessary adjustments to equipment as needed. May perform other related duties.

BRICKLAYER (Craft 01)

Lays out work from plans. Sets up template and guide lines. Lays brick, concrete block, tile or other materials in the construction of manholes, catch basin, drop inlet, sidewalk, retaining wall, and other incidental structures. May perform other related duties.

BULLDOZER OR PUSH DOZER OPERATOR (Class "B" Operator - Craft 21)

Operates large tractor with a concave steel blade or push block mounted in front of the chassis. Equipment is used to level, distribute, and push earth. This work is subjected to strict inspection and must conform closely to specifications. This equipment may be used as a pusher to load earth-carrying equipment. At times a ripper attachment is used for ripping the earth prior to loading the scraper. Regulates height of blade or push block from ground. May oil, grease or otherwise service and make necessary adjustments to equipment as needed. Performs other related duties.

CARPENTER (Craft 02)

Lays out work from plans or sketch. Builds wooden structures, such as concrete form, falsework, pouring chute, scaffold, etc. Builds in place to line and grade, or prefabricates in units to be erected later. Builds forms for bridge, drainage structure, wall, etc. May perform other related duties.

CENTRAL MIX PLANT OPERATOR - ASPHALT OR CONCRETE (Class "D" Operator – Craft 23)

Operates a stationary or portable batching plant in mixing concrete materials or asphaltic materials and aggregates to produce asphaltic or concrete paving materials. Adjusts controls for required mixture of the materials. Operates controls that admit materials separately from storage hoppers or mixing bins. Observes indicators that show when proper amount of materials have been made. Discharges materials from bin into truck or other carrier or mixer. Performs other related duties.

CHAIN SAW OPERATOR (Skilled Laborer – Craft 19)

Operates chain saw employer fuel or current for power. May oil, grease, service and make normal operating adjustments to equipment. May perform other related duties.

CLASS "A" OPERATOR (Craft 20)

Backhoe/Hydraulic Excavator ($\frac{3}{4}$ yard and over), Crane, End Loader (3 yards and over), Motor Patrol (Rough) Tractor (Crawler/ Utility), Scraper, Shovel, Trenching Machine.

CLASS "B" OPERATOR (Craft 21)

Backhoe/ Hydraulic Excavator (less than $\frac{3}{4}$ yards), Bull Dozer or Push Dozer, End Loader (less than 3 yards), Motor Patrol (Rough) tractor (Crawler/ Utility), Scraper, Shovel, Trenching Machine.

CLASS “C” OPERATOR (Craft 22)

Asphalt paver, Concrete Finishing Machine, Concrete Paver, Scale, Spreader (Self Propelled), Concrete Grinder, Asphalt Milling Machine, Boring Machine Operator (horizontal).

CLASS “D” OPERATOR (Craft 23)

Bobcat, Central Mixing Plant, Concrete Pump Concrete Saw, Curb Machine (Automatic or, Manual), Dozer or Loader (Stockpile), Drill (piling), Mulcher or Seeder, Rock Drill (truck mounted), Roller (Asphalt), Roller (compaction self propelled), Soil Stabilization Machine, Tractor (Boom and Hoist), Bituminous Distributor Machine, Pump, Track Drill, Striping Machine Operator.

CONCRETE FINISHER (Craft 03)

Finished wet surfaces to grade with hand tools, float, trowel, creed, template and straight edge on all types of concrete work requiring a fine finish. May perform other related duties.

CONCRETE FINISHING MACHINE OPERATOR

(Class “C” Operator – Craft 22)

Operates a self-propelled machine which travels on concrete paving forms and levels fresh concrete to approximate grade and contour by pushing and pulling two (2) creeds over the surface. May oil, grease or otherwise service and make necessary adjustments to equipment as needed. Performs other related duties.

CONCRETE GRINDER OPERATOR (Class “C” Operator – Craft 22)

Uses self-propelled machine to grind out concrete surfaces. Performs other related duties.

CONCRETE MIXER OPERATOR - Less Than 1 Yard

(Skilled Laborer – Craft 19)

Operates a small portable concrete mixing machine to mix sand, gravel, cement and water to make concrete. Starts power unit and does or over loading of materials. Controls the mixing by levers to discharge concrete from drums. The small machines are sometimes charged by operator shoveling in the proportions of materials directly into the mixing drum, and some others have a skip into which materials are shoveled or dumped before being hoisted into the mixing drum. Rises drum with water to remove adhering concrete. May oil, grease or otherwise service and make necessary adjustments as needed. Performs other related duties.

CONCRETE PAVER OPERATOR (Class “C” Operator – Craft 22)

Operates paving machine that travels on forms or in slipform operation. May oil, grease and service and make operating adjustments to equipment. May perform other related duties.

CONCRETE RUBBER (Skilled Laborer – Craft 19)

Uses tools on exposed surface of concrete masonry after the forms have been removed to patch holes with fresh concrete, rubbing surface with abrasive stone to remove rough spots. May perform other related duties.

CONCRETE SAW OPERATOR (Class “D” Operator – Craft 23)

Operates a water-cooled power saw with either diamond or an abrasive blade to saw expansion and contraction joints in concrete paving. May also be used to saw asphaltic pavements. May oil, grease or otherwise service and make necessary adjustments to equipment as needed. Performs other related duties.

CRANE OPERATOR (Class “A” Operator – Craft 20)

A general term applied to a worker who operates boom-type equipment to hoist and move materials, raise and lower heavy weights and perform other related operations. This equipment is used for such work as pouring concrete and setting steel that requires close conformance to specifications and is subjected to a strict inspection. Equipment may be used for other miscellaneous tasks for which crane or stick-type equipment is required. May include hoist operations and pile driving operations. May oil, grease or otherwise service and make necessary adjustment to equipment as needed. Performs other related duties.

**CURB MACHINE OPERATOR - AUTOMATIC
(Class “D” Operator – Craft 23)**

Operates a self-propelled machine which finishes fresh concrete to contour by pushing and pulling two (2) screeds over the surface. May oil, grease or otherwise service and make necessary adjustments to equipment as needed. Performs other related duties.

**CURB MACHINE OPERATOR – MANUAL
(Class “D” Operator – Craft 23)**

Operates a manual curb machine which by auger action forces compacted fresh concrete or asphalt through tube to form extruded curb along contour to grade. May oil, grease or otherwise service and make necessary adjustments to machine as needed. Perform other related duties.

**DISTRIBUTOR OPERATOR - BITUMINOUS
(Class “D” Operator – Craft 23)**

Drives truck equipped with tank and controls for regulating distribution of bituminous materials for highway surfacing. May oil, grease or otherwise service and make necessary adjustments to equipment as needed. May perform other related duties.

**DITCH PAVER MACHINE OPERATOR
(Class “D” Operator – Craft 23)**

Operates a self-propelled machine in pouring concrete ditch paving. May oil, grease or otherwise service and make necessary adjustments to equipment as needed. May perform other related duties.

DOZER OR LOADER - STOCK PILE ONLY (Class “D” Operator – Craft 23)

Operates a rubber-tired or crawler-type tractor with an attached bucket on front end. Moves levers to raise and lower to dump contents of bucket. Machine is used to load materials from stockpiles, charging batch plants, loading trucks. May oil, grease or otherwise service and make necessary adjustments to equipment as needed. May perform other related duties.

DRILL OPERATOR - CAISSON (Craft 04)

Sets up and operates drill mechanism for caissons. Levels and positions drill. Adjusts angle of drill. Controls drilling and speed of drill by moving controls. May oil, grease or otherwise service and make necessary adjustments to equipment as needed. May perform other related duties.

DRILL OPERATOR - PILING (Class "D" Operator – Craft 23)

Same as job description for Drill Operator (Caisson), except performs drilling for driving of piling.

ELECTRICIAN (Craft 05)

Plans and executes the layout of electrical conduit, installs wiring systems, switch-panels, buss bars, works on overhead distribution systems and underground distribution systems. May perform other related duties.

END LOADER OPERATOR (Class "A" Operator – Craft 20)

Operates a rubber-tired or crawler-type tractor with an attached bucket on front end. Moves levers to raise and lower and dump contents of bucket. Machine is used to load materials from stockpiles, excavation, charging batch plants, loading trucks. May oil, grease or otherwise service and make necessary adjustments to equipment as needed. May perform other related duties.

FENCE ERECTOR (Skilled Laborer – Craft 19)

Digs hole for post, drives post, attaches fence, pours incidental concrete. May perform other related duties.

FORM SETTER - STEEL ROAD (Skilled Laborer – Craft 19)

Fits together, aligns and grades metal road forms for holding concrete in place on road and street surfaces. Dismantles, moves and cleans forms after concrete hardens. May perform other related semi-skilled duties.

GUARD RAIL ERECTOR (Skilled Laborer – Craft 19)

Digs hole for post, drives post, attaches guard rail, pours incidental concrete, paints guard rail, May perform other related duties.

IRONWORKER - REINFORCING (Craft 07)

Performs layout work of rods within area to be paved. Fastens rods in place with wire or fasteners: bends or adjusts as required. Selects and places steel bars or spirals in concrete forms to reinforce concrete: fastens rods together with wire or patented fasteners: may cut rods with hack-saw or oxyacetylene torch. May bend rod, using a rod-bending machine, performs layout work and proper placing of steel in the concrete forms. May prefabricate reinforcement assembly for placement complete in forms. May perform other related ironwork duties.

IRONWORKER - STRUCTURAL (Craft 08)

Works as a member of a group that raises and places fabricated structural steel members, such as girders, plates, columns, and unites them permanently to form a completed structural steel framework. Heats rivets, signals erection crane, splices cables, rigs equipment. May include dismantling and erecting large units of equipment. May spin suspension bridge cables. May perform other related ironwork duties.

LABORER UNSKILLED (Craft 09)

A general term used on construction work covering many unskilled occupations. A laborer works with all crews doing everything from pick and shovel work to cleaning up lumber with hammer; shoveling and placing concrete; applying coats of oil to inside face of forms; stripping forms; working on rock crusher to feed trap; opening cement sacks to batch plant; lowering pipe into ditch for pipe layers; working with dirt crew to move construction layout stakes; serving as dump man; spreading hot asphaltic material over roadbed with shovel; operating hand concrete buggy or wheelbarrow; helping painter to prepare surfaces for painting and cleaning paint equipment; carrying rods to form or attaching them to cable of hoisting machine. May perform other related duties.

MECHANIC - CLASS I – HEAVY DUTY (Craft 10)

Assembles, sets up, adjusts, and maintains and repairs all types of construction equipment, such as internal combustion engines, air compressors, pumps, concrete mixers, heavy earth moving equipment, rock crushers, paving equipment. He may perform the duties of a welder in repair of equipment. Performs other related duties.

MECHANIC - CLASS II – LIGHT DUTY (Craft 11)

Same as Mechanic- Class I, except periodically needs and receives assistance from Mechanic-Class I.

MORTAR MIXER - HAND (Laborer Unskilled – Craft 09)

Mixes proportions of material in skip. May do or oversee loading of materials in skip by shoveling. May perform other related duties.

MOTOR CRANE DRIVER (Class “A” Operator – Craft 20)

Drives a heavy or medium-duty gasoline or diesel truck upon which is mounted a crane for picking up various objects: positions and levels truck at object to be lifted, fastens cables, operates levers or controls in lifting of objects in accordance with signals from designated worker on ground. May service and make necessary adjustments for proper operation of equipment. May perform other related duties.

MOTOR PATROL OPERATOR – FINISH (Class “A” Operator – Craft 20)

Rides in control cab of motor grader and moves levers and hand wheels to guide machine and regulate the scraper blade. Blade is mounted on a carrying and turning circle at the front of the machine. Equipment is used to level dirt to fine grade and lay asphalt and flexible base materials. This work is subjected to a strict inspection and must conform closely to specifications. May oil, grease, or otherwise service and make necessary adjustments to equipment as needed. Performs other related duties.

MOTOR PATROL OPERATOR – ROUGH (Class “B” Operator - Craft 21)

Rides in control cab of motor grader and moves levers and hand wheels to guide machine and regulate the scraper blade. Blade is mounted on a carrying and turning circle at the front of the machine. Equipment is used in leveling dirt to rough grade and in laying asphalt and flexible base materials. May adjust equipment as needed. May perform other related duties.

MULCHER OR SEEDER OPERATOR (Class “D” Operator – Craft 23)

Operates a mulching machine for the placement of mulched materials, feeding proper amount of materials used in mulching; operates gun for distribution; feeds machine as required and performs related duties. Services machine and make necessary adjustments as needed. May perform other related duties.

NOZZLEMAN OR GUNMAN – GUNITE (Skilled Laborer – Craft 19)

Handles the equipment and directs the placing of concrete or mortar that is moved by pneumatic equipment such as gunite. May fine-grade and place wire mesh at times. May perform other related semi-skilled duties.

PAINTER OR SAND BLASTER (Craft 12)

Sandblasts surfaces of structures, stone, etc., by currents of air or steam carrying sand at a high velocity in painting preparation. Paints sign posts, signs, bridges and structures, etc., with either brush, roller or spray. May perform other related duties.

PILE DRIVER OPERATOR (Class “D” Operator – Craft 23)

Operates machine, either crane or skid mounted, with leads and hammer or jets for driving piling. Assists other workers in setting up pile drive leads. May oil, grease, service and make normal operating adjustments to equipment. May perform other related duties.

PIPE LAYER (Skilled Laborer – Craft 19)

Lays, connects, inspects and tests water lines, force mains, gas lines, sanitary or storm sewers and drains, underground telephone and electric ducts or other utilities manufactured from clay, concrete, steel, plastic, cast iron pipe, or other similar materials. May smooth bottom of trench to proper elevation by scooping with a shovel; receives pipe lowered from top of trench; inserts spigot end of pipe into bell end of last laid pipe; adjusts pipe to line and grade, cauls and seals joint with cement or other sealing compound. May connect threaded or flanged joint pipe. May assemble and place corrugated metal or plastic pipe. Performs other related duties.

POWDER PERSON (Craft 13)

Supervises and assists in locating, loading, and firing blast holes for breaking up hard materials; enlarges bottom of drilled holes by discharging small quantities of explosives; inserts detonator in a charge of explosive, attaching fuse or electrical wires, the stick and detonator forming a primer, the discharge of which effects the discharge of the remainder of the explosive; charges hole by placing explosive, including stick that contains detonator, in hole and tamping lightly with a pole; depresses handle of blasting machine or lights fuse to fire explosive. May use prima-cord or delay caps. Performs other related duties.

PUMP OPERATOR (Class “D” Operator – Craft 23)

Operates a concrete, fuel, or other fluid pump. Sets up pump and lays pipe or flexible line. Operates power unit of pump. Takes pipeline apart to clean and store. May oil, grease, or otherwise service and make necessary adjustments to equipment as needed. May perform other related duties.

ROLLER OPERATOR - ASPHALT (Class “D” Operator – Craft 23)

Operates a self-propelled machine with either two or three steel flat wheels, which is used to compact plant mix asphalt pavement. Rides on platform of machine and moves lever, pedals, or throttles to control and guide machine. May oil, grease, or otherwise service and make necessary adjustments to equipment as needed. May perform other related duties.

ROLLER OPERATOR - OTHER THAN ASPHALT (Class “D” Operator – Craft 23)

Operates a crawler tread tractor to pull a grid, sheepsfoot, or extra-heavy pneumatic roller, which is used to compact earth fills, flexible bases, etc. Operates tractor by manipulating throttle, levers, and pedals and steers tractor by working levers or pedals that individually control both crawler treads. May oil, grease, or otherwise service equipment as needed. May perform other related duties.

SCALE OPERATOR (Class “C” Operator – Craft 22)

Weighs materials in trucks prior to delivery. Records net and gross weights, truck number, and kind of materials. May weigh empty trucks on the truck scale in order to compute net weights. May issue weights tickets on certain types of scale equipment. Job is clerical in nature. Performs other related duties.

SCRAPER OPERATOR (Class “B” Operator - Craft 21)

Operates self-propelled rubber tired or tractor drawn unit known as a scraper, pan, etc., to excavate, transport, and deposit materials moved in normal grading operations. May oil, grease, service, and make normal operating adjustments to equipment. May perform other related duties.

SHOVEL OPERATOR - DRAGLINE (Class “B” Operator - Craft 21)

A general term applied to a worker who operates boom-type equipment to hoist and move materials, raise and lower heavy weights, and perform other related operations. This equipment is used for such work in excavation to load haulage equipment with material. Equipment may be used for other miscellaneous tasks for which crane or stick-type equipment is required. May include hoist operations and pile driving operations. May oil, grease, or otherwise service and make necessary adjustments to equipment as needed. Performs other related duties.

SIGN ERECTOR (Skilled Laborer – Craft 19)

Reads plans. Makes layout for erection of signs. Cuts, ties, and sets reinforcing steel. Sets forms for concrete; pours concrete; sets anchor bolts; erects wood or metal structures; places clamps, brackets, or other required hardware on structures. May perform other related duties.

SKILLED LABORER (Craft 19)

Air Tool Operator, Asphalt Raker, Chain Saw operator, Concrete Mixer Operator (less than 1 yard), Concrete Rubber, Edger, Fence Erector, Form Setter (Steel Road), Guard Rail Erector, Mechanics Helper (Tire Changer or Oiler), Mortar Mixer, Nozzleman or Gun Operator (Gunit), Pipelayer, Sign Erector, Survey Helper/Rodman.

SOIL STABILIZATION MACHINE OPERATOR (Class “D” Operator – Craft 23)

Operates self-propelled rubber-tired or crawler-type equipment to mix and spread road materials for soil stabilization with cement, asphalt, lime, fly ash, etc. May oil, grease, service and make necessary adjustments for proper operation of equipment. May perform other related duties.

SPREADER OPERATOR - SELF PROPELLED (Class “C” Operator – Craft 22)

Drives a self-propelled vehicle, consisting primarily of a hopper mounted on pneumatic-tired wheels, used to spread crushed aggregate on bituminous roadway material. May service and make necessary adjustments for proper operation of equipment. May perform other related duties.

STRIPING MACHINE OPERATOR (Class “D” Operator – Craft 23)

Rides back of paint truck and uses specialized machine to apply pavement machines using paint or thermo plastic. Aligns lower carriage as necessary. Performs other related duties.

SURVEY HELPER/RODMAN (Skilled Laborer – Craft 19)

Performs any of the following duties to assist in surveying land: Holds level or stadia rod at designated points to assist in determining elevations and laying out stakes for mapmaking, construction, mining, land, and other surveys; calls out reading or writes station number and reading in notebook; marks points of measurement with elevation, station number, or other identifying mark; measures distance between survey points, using steel or cloth tape or surveyor's chain; marks measuring points with keel (marking crayon), paint sticks, scratches, tacks, or stakes; places stakes at designated points and drives them into ground at specified elevation, using hammer or hatchet; cuts and clears brush and trees from line of survey, using brush hook, knife, ax, or other cutting tools.

SURVEY INSTRUMENT OPERATOR (Craft 24)

Obtains data pertaining to angles, elevations, points, and contours used for construction, map making, mining, or other purposes, using alidade, level, and transurveying instruments. Compiles notes, sketches, and records of data obtained and work performed. Directs work of subordinate members of survey team. Performs other duties relating to surveying work as directed by Chief of Party.

SWEEPING MACHINE (VACUUM) OPERATOR (Craft 14)

Drives sweeping machine that cleans street of trash and other accumulations. Fills water tank of machine from hydrant. Drives sweeper along street near curb. Moves controls to activate rotary brushes and water spray so that machine automatically picks up dust and trash from paved street and deposits it in dirt trap at rear of machine. Pulls lever to dump refuse in piles at curb for removal.

TRACK DRILL OPERATOR (Class "D" Operator – Craft 23)

Operates drilling machine, such as wagon drill, air trac, well driller, etc., for the purpose of drilling rock, shale, or other material. Starts, stops and services portable air compressor. May oil, grease, service and make normal operating adjustments to equipment. May perform other related duties.

TRACTOR OPERATOR - BOOM AND HOIST (Class "D" Operator – Craft 23)

Operates a rubber-tired or crawler-type tractor with an attached boom and hoist. Moves levers to raise and lower materials and miscellaneous items in trenches and excavations. May oil, grease, or otherwise service and make necessary adjustments to equipment as needed. Perform other related duties.

TRACTOR OPERATOR - CRAWLER OR UTILITY (Class "B" Operator - Craft 21)

Operates gasoline or diesel powered crawler tread or rubber tired tractor to haul heavier implements such as large root plows, heavy sheepfoot rollers, large pneumatic rollers, water tanks, trailers, etc., used in heavy ground clearing operations. Uses miscellaneous attachments such as post-hole digger. May oil, grease, service, and make normal operating adjustments. May perform other related duties.

TRACTOR OPERATOR (FARM) POWER BROOM (Craft 06)

Operates a small gasoline or diesel powered four-wheel, rubber-tired tractor of the farm type. Tractor is used to pull pneumatic rollers. Tractor is operated by steering with wheel and brake clutch. May oil, grease, or otherwise service and make necessary adjustments to equipment as needed. May perform other related duties.

TRENCHING MACHINE OPERATOR (Class "B" Operator - Craft 21)

Moves levers to operate a power-driven machine that digs trenches for sewer, water, drainage, oil, or gas pile line. The trenching machine is mounted on crawler treads or rubber tires with the digging equipment usually consisting of an endless chain or wheel of edged buckets that excavate and deposit the material on a conveyor belt that in turn discharges the material at the side of the trench. May oil, grease, or otherwise service and make necessary adjustments to equipment as needed. May perform other related duties.

TRUCK DRIVER - 2 AXLES (Craft 15)

Drives multi-rear axle truck for transporting construction material. May have various kinds of bends attached, such as dump, flat bed, water tank, etc., includes water wagon, service truck, hoist truck, etc. May oil, grease, service, and make normal operating adjustments to equipment. May perform other related duties.

TRUCK DRIVER - 3/4 AXELS (Craft 16)

May pull semi-trailer or trailer to transport construction equipment and materials.

TRUCK DRIVER - 5 OR MORE AXELS OR HEAVY DUTY OFF THE ROAD (Craft 17)

Operates heavy duty off-road or rock moving equipment, such as, but not limited to, Koehring Dumpster, Euclid, either back or bottom dump, International Payhauler, etc. May oil, grease, service, and make normal operating adjustments to equipment. May perform other related duties.

WELDER'S HELPER

(ANY CLASS TO WHICH THE WORK IS INCIDENTAL)

A learner or worker semi-skilled in this craft who assists the welder in electric arc and acetylene welding. Assists in oxyacetylene cutting and layout. Performs other related duties.

WORKSITE TRAFFIC COORDINATOR (Craft 18)

Supervises and coordinates activities of worker engaged in installing and repairing traffic signals, erecting signs or devices, such as traffic islands and barriers. Performs other related duties.

The Tennessee Department of Labor and Workforce Development is an equal opportunity employer. Auxiliary aids and services are available upon request to individuals with disabilities.

El Departamento del Trabajo y de la Fuerza Laboral es un organismo empresarial que aplica la igualdad de oportunidades. Los Servicios y ayudas auxiliares están disponibles para los individuos con impedimentos si los solicitan.

Tennessee Department of Labor and Workforce Development, Authorization No. #337378 25 copies. This document has been promulgated at a cost of \$.28 per copy.
